Accountants making a difference

Yes, like most accountants we can do your taxes and accounting. But there is more to it than preparing your financials and calculating your taxes. It is about setting up your structure correctly, maximising your profit and cashflow, and ultimately achieving financial freedom. We want to make a difference and a significant impact in your financial life.

There's more to it than just the **numbers**.

WHAT TO EXPECT

Pay minimum taxes

We all have to pay taxes but to pay more than you need to should never happen.

As part of our package we will review your taxes and ensure that the minimisation of your taxes is always on our minds.

Free phone calls & emails

Our clients love the idea they can pick up the phone and call us or email us knowing that the clock is not ticking.

We want to be an integral part of your business which means constant communication.

We want to know what you are thinking of doing before you do it, so that we can advise you of everything you need to be aware of before you make a final decision.

Fixed Fees

With fixed fees agreed before we work with you, you know what it is going to cost so that you do not ever receive any surprises.

Create Wealth

Sometimes we get so preoccupied with day-to-day business operations that we forget the bigger picture.

We get into business to make money with the idea that we will exit the business at some stage.

The reason we get into business is so that we are in control of our destiny which includes our financial future. We will discuss with you on a regular basis how you should invest to create wealth and ultimately financial freedom.

Review of Your Structure

We regularly review your structure to ensure it is still appropriate for you especially from an asset protection point of view, minimisation of taxes and part of your personal estate planning.

Maximise Profit & Cashflow

The purpose of being in business is to increase profit and maximise cashflow which will give you freedom in terms of hours worked.

We will assist you by reviewing your current operations and create strategies to take advantage of opportunities available to improve profit and cashflow whilst at the time reducing the hours you work in the business.

Your 9 Steps to Financial Freedom

4. What are your numbers telling you? Numbers always tell a story, so is it a good story or a bad story? We analyse the figures for you and let you know.

5. How can we use what the numbers tell us to increase cashflow and make it abundant?

6. What business opportunities exist or are available so that these can be taken advantage of so that profits and cash can increase?

3. What is working for you? What is not working? We will help you identify areas your business can improve.

2. Are you paying the least amount of taxes? Can you pay less? We will do a full review for you every year.

1. Do you have the right structure? Will your current structure protect your business and personal assets, so you do not lose them? We will review this for you.

7. How and where to invest to create long term wealth? We will work with your Financial Advisor to create a plan suited for you.

8. Passive income will help you reduce hours you work and reduce your reliance on your business. It will also provide an income in retirement.

9. At some stage you will decide to exit the business and eventually leave your wealth to those you love. We help you exit your business and set up your affairs so that passing wealth to your loved ones is achieved stress-free with the least amounts payable in taxes.

When Something Good Happens With Us Something Good Happens in the World

We believe it in our duty to give back to those less fortunate than ourselves. As part of this belief, the Wow! Advisors & Business Accountants Group has joined the B1G1 'Give a Million' campaign, where our aim is to make 1 million impacts to those in need.

Since March 2018 we have tracked the tax savings & profit improvement strategies we have put in place for our clients. So far to date we have created \$5M in more income and less taxes. This has resulted in 967,481 impacts in the world.

967,481
Our giving impacts to date

- We've given 10 days of access to clean water to school children
- We've given 100 days of access to life-saving clean water to people in Malawi
- We've given 100 days of access to life-saving clean water to families in Ethiopia
- We've provided 1 day of safety and normalcy for a child refugee
- We've provided 1 day of mental health treatment to a child
